If you don't give your partners a perfectly personalized and easy-to-use experience with your company, you can bet your competition will. The Partner Portal is the front door to that relationship. Impartner PRM includes the tools necessary to personalize the experience partners have with your company:

- SegmentAI to dynamically define your different audiences
- Powerful CMS for editing your content to keep it fresh and relevant
- Channel Flow to automate communication and processes
- SmartContent to revolutionize your asset library

## CRM Integration — Don't Settle For Anything Less Than Real-time

Many smaller PRM tools only offer a connector or batch sync of your precious leads and opportunities within the channel pipeline. This leads to suboptimal conditions where your partners and channel management team aren't seeing the same data. Don't put your data integrity at risk. Impartner PRM has secure, tried and true integrations built with all the major CRM providers — and all are deployed with a real-time data sync.

## Return On Investment

Industry Analyst group Frost & Sullivan estimates that companies who adopt commercially available PRM software (like ours!) generate an average of \$8–\$9m incremental revenue in the first year alone. This has certainly proven to be the case for our customers as our latest anonymous survey reports that companies see an average 32.3% increase in their channel revenue within the first year of using Impartner PRM.

## Where Does This Come From?

- **Cost Savings**

Forrester Research reports that for every \$1 spent on a commercial PRM solution, companies will save \$10 of manual labor costs. No more time spent managing your partner channel with email and spreadsheets.

- **Increased (and better qualified) Partner Applications**

CRN reports that 86% of channel partners choose their vendors based on the portal experience. Put out an excellent welcome mat and you will naturally attract more and better partners.

- **Increased partner engagement**

Signing up new partners is only the first step. You need them to actively engage with you, and a good portal experience is the key. Allowing partners to register their deals with you means higher margin for them. Pushing qualified leads through your portal to your partners makes your portal the watering hole for your channel. Giving them targeted content and communications enables your partners to be efficient and effective.
